

# SX60 WIPERS

UNIVERSAL WIPERS

# SRAPP

**Solusi Serap Andal  
untuk Setiap Tumpahan**

## Product Overview

Our 60gsm white plain nonwoven wiper is engineered for industrial and commercial cleaning applications that demand strength, high absorbency, and low linting. Manufactured from a blend of wood pulp and polypropylene (PP), this spunlace wiper delivers outstanding wet and dry durability with reliable performance in tough working conditions. Ideal for high-usage environments, it provides consistent efficiency and dependable results.

## Product Specifications

- Material Wood Pulp + Polypropylene (PP)
- Technology Spunlace Nonwoven
- Color White
- Pattern Plain
- Basis Weight 60 gsm
- Sheet Size 31 × 34 cm
- Sheets per Roll 900 sheets
- Packaging 1 roll per case
- Case Dimensions 38 × 38 × 33 cm
- Thickness 0.368 mm
- Tensile Strength MD: 56 N/5cm, CD: 24 N/5cm
- Breaking Elongation MD: 48%, CD: 92%
- Water Absorbing Capability 5.1 g/g
- Drying Loss 4.3%

## Key Features

- Strong tensile performance in both wet and dry conditions
- Highly absorbent for water, oils, and cleaning solutions
- Minimal lint generation
- Soft texture with long-lasting durability
- Dependable performance for industrial applications

## Recommended For:

- Industrial manufacturing plants
- Automotive service centers
- Printing facilities
- Food production areas
- Maintenance and repair activities (MRO)
